About this book

This activity book is a supplement to the reference book—*A Missing Link In History: The Journey of African Americans in Golf*. Before doing the activities, it is highly recommended that you first read *A Missing Link In History* and also familiarize yourself with the information listed in “Facts at Your Fingertips” (a section in this book).

Recommended for elementary and middle school grades, the interdisciplinary/cross-curricular activities include social studies, science, language arts, math, social skills, creative arts, and problem solving. Activities may be completed individually or in a group setting, and are highly recommended for “family time”.

Designed to enhance communication, teamwork, presentation, and academic skills—the principal objectives are to: develop and enhance an interest in African American golf history; gain knowledge of the ideas and actions of African American golf legends; and provide a fun and entertaining way to learn and retain African American golf history.

It is the author’s goal to provide material that will enable—teachers and students, and also parents and their children—to discuss the scope of involvement of African Americans in golf, and also their many contributions to American History.
